

Effectively Managing Oklahoma Workers' Compensation Certified Workplace Medical Plan (CWMP)

National American Insurance Company has partnered with CorVel Corporation and would like to introduce you to CorVel's Certified Workplace Medical Plan (CWMP). The CWMP focuses on providing quality case management of medical services, lowering workers' compensation costs up to 15% below the Oklahoma State fee schedule with proven savings of over 57%. Through CorVel we can assist the employers by providing effective, timely treatment for the patient. CorVel excels by having an effective outcome and a cost-effective program.

Why is a CWMP important to you? It is important because effective July 1, 2005, the Oklahoma Legislature significantly changed workers' compensation laws.

New Law Bill 1X overview on the Oklahoma CWMP

- Eliminated the CWMP open enrollment (Option A and Option B enrollment) - Now an easier enrollment process than ever before!
- Provides adjuster and/or employer has the ability to select the treating physician for employees
- Offers a one-time application to request a change of physician within the CWMP-PPO Network with a CWMP Medical Dispute Resolution Process.

Components of the CWMP

CorVel Advocacy will provide:

- All medical services in a timely, effective, and convenient manner for the injured employee.
- Geographically convenient care.
- Reduction in service costs and utilization while maintaining quality service.
- Peer review, utilization review and dispute resolution to prevent inappropriate, excessive or medically unnecessary treatment, and exclude participation in the plan by those providers who violate these treatment standards.
- A dispute resolution procedure requires medical treatment disputes to be resolved within 10 days.
- Aggressive case management and early return to work program.
- Authorization for emergency medical treatment by non-plan health care providers.
- Physician who agree to comply with all rules, terms, and conditions of the CWMP.

Advantages

CorVel advocacy will provide cost effective, appropriate and timely treatment for the injured worker, reducing both medical cost and lost time by facilitating a safe return to work. The purpose of CorVel's CWMP is to assure quality, cost-effective medical treatment that is below NAICO's / CorVel's normal savings.

Enhance your workers' compensation claims services and save additional money by enrolling in CorVel's CWMP today!
